

Your CHW: **A partner in your healthcare**

If you need additional services and do not know who to ask:

How to connect with a CHW...

- MECHWI- www.mechw.org
- Ask your primary care provider
- Ask your town's general assistance
- Call 211

Your CHW can help you with...

- Specialty care services
- Getting health insurance coverage
- Getting medications
- Arranging transportation
- Providing advocacy
- Resources to community connections and essential needs.
- Referrals to mental health and substance use services.

How a CHW can help a provider and organization

- Assist in getting the medications
- Help with applying for insurance
- Transportation to appointments
- Follow up on referrals
- Translation and understanding
- Part of your care team
- Connect with resources
- Obtain medical equipment
- Reduce ER visits

CHW intervention in addressing these barriers saves providers time during appointments.

Real Stories - Real Impact

Patient stories help:

- Build empathy among healthcare providers
- Improve communication and trust
- Highlight gaps in care and inspire change
- Empower others to seek help and share their own experiences
